

We have renewed the morning menu because we want to have breakfast with you!

**They say breakfast is the most important meal of the day. Therefore we have prepared a complete offer with natural and fresh ingredients for you to have a good start every day.**

**Sandwiches:** The bread of our sandwiches is made one by one by our bread masters, using only high-quality flours and the time that requires anything well-made.

**Juices:** Have something healthy with our juices 100% natural, to help detox your body and give it a push of extra energy.

**Pastries:** Our croissants are all natural. The dough is leavened for 8 hours in order to get the soft and crunchy layers.

You can't miss it! Shall we have breakfast together?
